## **DETAILED ACTION**

### ***Election/Restrictions***

1. Applicant's election without traverse of Figs. 1-4 claims 1-6 in the reply filed on 08012004 is acknowledged.
2. Claims 7-9 are withdrawn from further consideration pursuant to 37 CFR 1.142(b), as being drawn to nonelected species, there being no allowable generic or linking claim. Applicant timely traversed the restriction (election) requirement in the reply filed on 08012004.

### ***Drawings***

3. The drawings are objected to because:  
On page 3 of the specification, reference number 13 has been used to designate "slits", the drawings show reference number 13 as pointed to the conical section.

Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. The replacement sheet(s) should be labeled "Replacement

Art Unit: 3617

Sheet" in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

***Claim Rejections - 35 USC § 112***

4. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

5. Claims 1-6 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 1, line 2, the phrase "each having a conical inner side face" is confusing as it is not consistent with the drawings which show conical surface on one side and sectional or segmented outer face with multiple rods and multiple indents on the inner side face as recited in lines 4-5 of claim 1.

***Allowable Subject Matter***

6. Claims 1-6 stand allowable. None of the references of record suggests a wheel for in-like skate wherein the rods from one half are inserted into the indents of the other half and the segmented protrusions from one half are inserted into the cutouts of the other half and the assembly of the wheel is accomplished in the manner defined in the instant claim 1.

***Conclusion***

Art Unit: 3617

7. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure:

Alsman, Djerf, Tanner are cited to show related wheel comprising multiple indents and segmented protrusions.
